Executive Secretary, Economic Intelligence Committee

The Economic Capabilities of The Soviet Bloc to Support a General War

IAC-M-50

1. In fulfillment of requests in the memoranda referred to above, a Working Group of the Economic Intelligence Committee has drawn up the proposed project described in the attached WGC-D-1. This proposal differs somewhat in both form and content from the project as outlined in JICM-277.

2. The Military Services have interpreted paragraphs 3 and 4 of JICM-277 and paragraph 6 of IAC-M-50 to mean that changes in the project as outlined for the Military Services in JICM-277 could be authorized only by the JIG (Red Team), after consultation with representatives of the Service intelligence agencies.

3. It is therefore requested that the JIG (Red Team) take such action as may be required to authorize the Military Services to adopt the "Instructions for Military Analysts" as proposed by the EIC Working Group (see attached WGC-D-1, Annex 1).

4. Since all parts of the proposed project are highly interdependent, it is further requested that any suggested changes be referred back to the EIC Working Group before final action is taken in assigning any part of this project to the Military Services.
